Northwind Analytics Ltd.

Annual Report — Fiscal Year 2025

Letter from the Chief Executive Officer

Dear shareholders, fiscal year 2025 was the strongest year in Northwind's history. Total revenue grew 18% year over year to $482.6 million, driven by sustained demand for our Cloud Platform. We ended the year with 2,340 employees across five offices, and our headquarters remains in Pune, India, where the company was founded in 2011.

Net retention among enterprise customers reached 124%, and we signed 61 new enterprise accounts during the year. I want to thank our customers and our teams for their trust.

— Meera Iyer, Chief Executive Officer

Business Segments

Cloud Platform

The Cloud Platform segment provides managed analytics infrastructure on a subscription basis. It is our largest segment and contributed the majority of growth in FY2025. The segment launched real-time streaming ingestion in the third quarter.

Data Services

Data Services covers data engineering, governance, and quality tooling. The segment introduced an automated data-lineage product used by 140 customers at year end.

Consulting

Consulting delivers implementation and advisory engagements. Utilisation of billable consultants averaged 78% during the year.

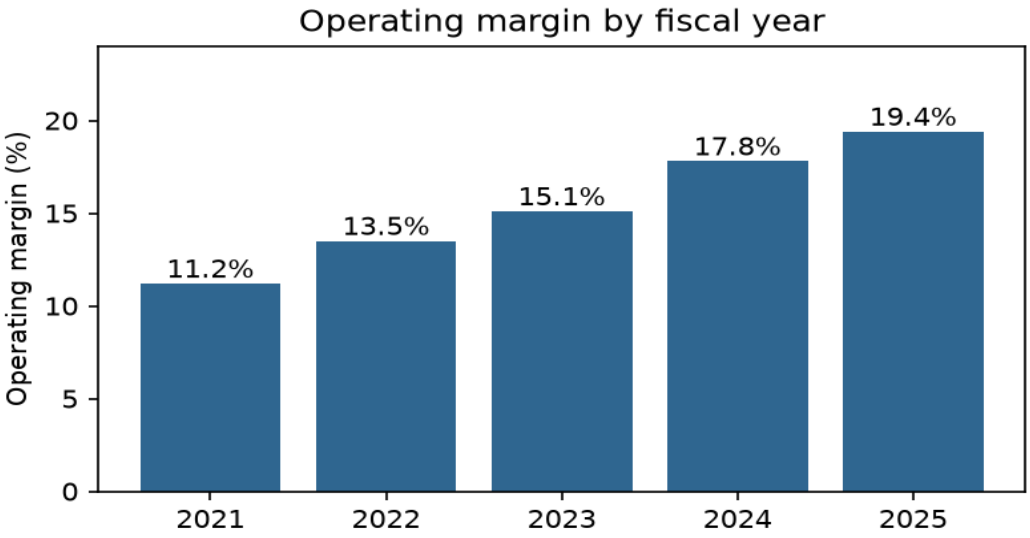

Revenue by Segment

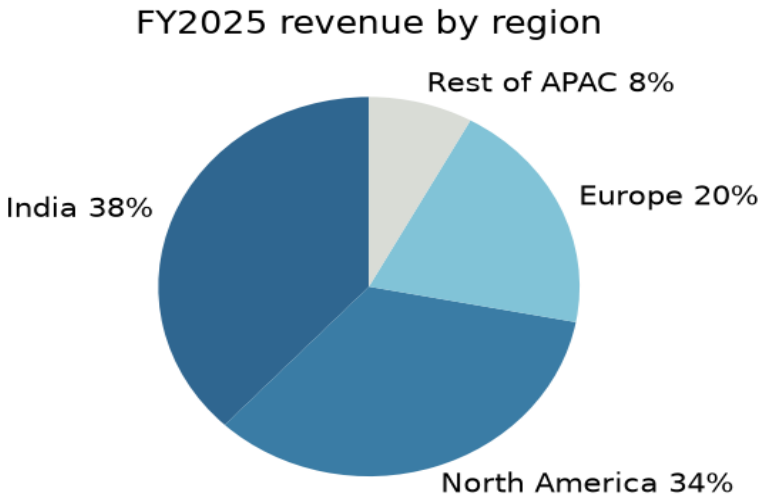

Quarterly revenue by segment for FY2025, in US$ millions.

Segment	Q1	Q2	Q3	Q4	FY2025
Cloud Platform	52.4	56.1	60.3	64.8	233.6
Data Services	31.2	33.0	34.7	36.5	135.4
Consulting	27.0	28.1	28.9	29.6	113.6
Total	**110.6**	**117.2**	**123.9**	**130.9**	**482.6**

Fourth-quarter revenue was the highest of the year in every segment.

Profitability and Geographic Mix

Sustainability and People

We reduced absolute carbon emissions by 22% compared with the 2023 baseline. Renewable electricity now powers 64% of the data centres we operate. Voluntary employee attrition improved to 13.1% from 16.4% in the prior year.

Principal Risks

Key risks include concentration of revenue among our top ten customers, who account for 27% of revenue; currency fluctuation between the Indian rupee and the US dollar; and competition from hyperscale cloud providers.

Outlook for FY2026

For fiscal year 2026 we expect revenue between $560 million and $580 million. We plan capital expenditure of $41 million, mainly for new data-centre capacity, and we intend to open a Singapore office in the second quarter of FY2026.

Headcount by Function
